Commemorating Florence Nightingale's 200th Birthday

#YearoftheNurseandMidwife2020

"To be 'in charge' is certainly not only to carry out the proper measures yourself but to see that everyone else does so too."

-Florence Nightingale

Nurses, midwives and health professionals across the globe have been recognizing 2020 as the [International Year of the Nurse and Midwife](#) in honor of Florence Nightingale's 200th birthday. A nursing and health care pioneer, Florence Nightingale is remembered for her advocacy in changing standards of care and improving nursing education. Today we think about how the nursing profession has become a vital piece of the health care puzzle thanks to nurses' unending devotion to healing others and saving lives. Right now nurses and healthcare workers are being pushed to the limit in caring for those affected by COVID-19. We continue to recognize their heroic hard work and tireless efforts providing life-saving care all over the world.
